

Odenton Volunteer Fire Company

Neighbors Helping Neighbors

Members of the Odenton Volunteer Fire Company are continuing to serve you during the COVID-19 pandemic. They leave the safety of their home to staff the fire engine, ladder truck and ambulance day and night, and for no compensation. Neighbors helping neighbors...

Training and Readiness

Members of the Odenton Volunteer Fire Company are on-duty and ready to serve. They are engineers, PhDs, doctors, paramedics, retail managers, plumbers and electricians to name a few, but more importantly they are also national certified Emergency Medical Technicians, Firefighters, and Anne Arundel County recognized Fire Officers. Even during these trying times our members find time to train together so that they are ready for the next call for help.

The Odenton Volunteer Fire Company is a 501C nonprofit organization that relies on your support and generosity. In April you will see our annual fundraising letter. If you have the ability to help nonprofits, please keep us in mind. From all members, thank you for your generous support!
